# Glenview at Santa Fe Parent Busing Handbook

August 9, 2016

## INTRODUCTION

Oakland Unified School District is excited to provide a safe and efficient form of transportation for Glenview students during the 2016-18 construction project. The District's main priority is to ensure the safety of Glenview students throughout the school day including while on the bus.

This guide, developed in collaboration with OUSD Department of Transportation, OUSD Facilities Department and Glenview staff and parents on the Interim Housing Committee, provides important information to families on how to support their child in having a safe transport.

The handbook is a living document and, therefore, subject to change. Please refer to the weekly Glenview Grapevine newsletter for any updates to this handbook.
